Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Specification

The use of the trademark VELCRO has been noted in this application. It should be capitalized wherever it appears **and be accompanied by the generic terminology hook and loop fastener.**

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Golde (US 5,884,338).

Golde discloses an accessory pocket for attachment to a garment (such as pants shown) comprising an inner enclosure with pocket (18) having a border portion directly attached to the garment and a translucent interior portion (34); first attachment means (zipper component portions (20,22), a flap (24) with a second attachment means (complementary zipper component portions 20,22) for releasable engagement with the first attachment means wherein the flap (24) is sized to completely cover the translucent interior portion (34) of the inner enclosure. The first and second attachment means are

Art Unit: 3765

zippers and are substantially water resistant as broadly claimed. The enclosure includes an opening defined by a top edge (adjacent reference number 24) with sealing means, flap (28). The flap (24) includes the claimed closure means as seen in figure 4 and is attached to the garment in spaced relation in that the upper flap is paced from the lower portion on the garment when the flap 24 is folded over the lower portion in the closed position. The enclosure has side edges (at 20,22) and a lower edge attached (at 26) to the garment as seen in figure 4. (See Golde, figure 2-4; col. 3, line 38 – col. 4, line 43).

Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. None of the cited references, alone or in combination, disclose the edges of the enclosure as being in spaced relation as claimed in claim 4.

Response to Arguments

Applicant's arguments filed 12-13-04 in regard to claims 1-3 and 5-7 have been fully considered but they are not persuasive. The generic terminology for VELCRO such as hook and loop fastener still needs to be inserted into the specification. The upper flap is in a spaced relationship from the lower portion attached to the garment when the upper flap is closed over the lower flap in the closed position. The limitations of claim 4 describes the allowable subject matter which defines the "edges" as being in a spaced relation.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
